CAMEL: Intelligent Networks for the GSM, GPRS and UMTS Network

Rogier Noldus

CAMEL: Intelligent Networks for the GSM, GPRS and UMTS Network Rogier Noldus
Learn how to use CAMEL to transfer the Intelligent Network concept to the mobile world!

CAMEL (Customized Application for the Mobile network Enhanced Logic) is a standard for Intelligent Networks for mobile communications networks. It is currently deployed in all regions of the world, enabling mobile network operators to offer fast and efficient services to their subscribers.

This book is an in-depth and dedicated reference on CAMEL, taking the reader through the history and development of Intelligent Networks and the essential principles of CAMEL, to the future of the technology. The author provides guidance on the various standards and specifications, and explains not only *how* CAMEL works but also *why* it works this way. Practical hints on the installation of CAMEL in the network are given throughout the book.

CAMEL: Intelligent Networks for the GSM, GPRS and UMTS Network:

- Offers a comprehensive guide to implementing CAMEL.
- Gives a complete picture, including the network entities & data flows involved.
- Describes and explains the four CAMEL phases and their aspects.
- Presents an overview of the principles of Intelligent Networks, such as Finite State Machines, Trigger Detection Points, Event Detection Points and dialogue, essential to understanding CAMEL.
- Covers charging and accounting issues, and the impact of CAMEL on the charging system in the mobile network.
- Provides practical hints over and above those mentioned in the formal specifications.

This text will be an invaluable resource for intelligent network service logic designers, service network designers, network engineers, and GSM/UMTS network designers and implementers. Advanced students on courses such as 'Intelligent Networks', 'Value Added Services', and 'Service Networks' will also find it an excellent guide to the topic.

From reader reviews:

Ronnie Hamilton:

Why don't make it to become your habit? Right now, try to ready your time to do the important act, like looking for your favorite guide and reading a reserve. Beside you can solve your trouble; you can add your knowledge by the reserve entitled CAMEL: Intelligent Networks for the GSM, GPRS and UMTS Network. Try to make the book CAMEL: Intelligent Networks for the GSM, GPRS and UMTS Network as your good friend. It means that it can to be your friend when you experience alone and beside regarding course make you smarter than previously. Yeah, it is very fortunated for you personally. The book makes you much more confidence because you can know everything by the book. So , we should make new experience as well as knowledge with this book.

Lewis Labelle:

Are you kind of occupied person, only have 10 or even 15 minute in your time to upgrading your mind proficiency or thinking skill actually analytical thinking? Then you are experiencing problem with the book as compared to can satisfy your limited time to read it because all this time you only find book that need more time to be learn. CAMEL: Intelligent Networks for the GSM, GPRS and UMTS Network can be your answer mainly because it can be read by an individual who have those short spare time problems.

Morris Reyna:

The book untitled CAMEL: Intelligent Networks for the GSM, GPRS and UMTS Network contain a lot of information on it. The writer explains the girl idea with easy technique. The language is very simple to implement all the people, so do definitely not worry, you can easy to read the item. The book was compiled by famous author. The author will bring you in the new period of time of literary works. It is possible to read this book because you can please read on your smart phone, or program, so you can read the book within anywhere and anytime. In a situation you wish to purchase the e-book, you can wide open their official website and also order it. Have a nice go through.

Mary Parker:

In this period of time globalization it is important to someone to get information. The information will make someone to understand the condition of the world. The condition of the world makes the information simpler to share. You can find a lot of references to get information example: internet, paper, book, and soon. You can observe that now, a lot of publisher which print many kinds of book. Typically the book that recommended for you is CAMEL: Intelligent Networks for the GSM, GPRS and UMTS Network this publication consist a lot of the information on the condition of this world now. This book was represented how does the world has grown up. The language styles that writer require to explain it is easy to understand. The writer made some exploration when he makes this book. Honestly, that is why this book ideal all of you.
