Advanced Information Processing in Automatic Control (AIPAC'89) (IFAC Symposia Series)

Advanced Information Processing in Automatic Control (AIPAC'89) (IFAC Symposia Series)

Information Processing is a key area of research and development and the symposium presented state-of-the-art reports on some of the areas which are of relevance in automatic control: fault diagnosis and system reliability. Papers also covered the role of expert systems and other knowledge based systems, which are needed, to cope with the vast quantities of data generated by large scale systems. This volume should be considered essential reading for anyone involved in this rapidly developing area.
