Which Process?: A Guide to the Selection of Welding and Related Processes (Woodhead Publishing Series in Welding and Other Joining Technologies) P T Houldcroft

The author presents a unique scheme for selecting processes at the drawing board stage where a need for a connection is usually first perceived. Leading the enquirer through a series of diagrams and tables, he reveals the processes which are feasible for a particular joint. The book includes descriptions of 28 joining processes in which the principal method of use, advantages and limitations, application and factors affecting costs are explained. The book is well illustrated and contains much useful advice invaluable to practising engineers and designers having no previous knowledge of joining.

From reader reviews:

Michael Turner:

Do you have favorite book? In case you have, what is your favorite's book? Guide is very important thing for us to know everything in the world. Each guide has different aim or maybe goal; it means that reserve has different type. Some people experience enjoy to spend their time and energy to read a book. They may be reading whatever they acquire because their hobby is actually reading a book. How about the person who don't like reading through a book? Sometime, particular person feel need book if they found difficult problem as well as exercise. Well, probably you will require this Which Process?: A Guide to the Selection of Welding and Related Processes (Woodhead Publishing Series in Welding and Other Joining Technologies).

Jerry Sonnier:

The reason why? Because this Which Process?: A Guide to the Selection of Welding and Related Processes (Woodhead Publishing Series in Welding and Other Joining Technologies) is an unordinary book that the inside of the book waiting for you to snap that but latter it will zap you with the secret this inside. Reading this book beside it was fantastic author who write the book in such amazing way makes the content inside easier to understand, entertaining way but still convey the meaning thoroughly. So , it is good for you for not hesitating having this anymore or you going to regret it. This amazing book will give you a lot of benefits than the other book include such as help improving your talent and your critical thinking method. So , still want to delay having that book? If I were you I will go to the e-book store hurriedly.

Donna Hoffmann:

Do you one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Aim to pick one book that you just dont know the inside because don't judge book by its protect may doesn't work the following is difficult job because you are afraid that the inside maybe not since fantastic as in the outside appearance likes. Maybe you answer can be Which Process?: A Guide to the Selection of Welding and Related Processes (Woodhead Publishing Series in Welding and Other Joining Technologies) why because the amazing cover that make you consider regarding the content will not disappoint anyone. The inside or content is actually fantastic as the outside or cover. Your reading sixth sense will directly guide you to pick up this book.

Charles Gray:

As a college student exactly feel bored in order to reading. If their teacher questioned them to go to the library or to make summary for some guide, they are complained. Just little students that has reading's spirit or real their pastime. They just do what the instructor want, like asked to the library. They go to there but nothing reading very seriously. Any students feel that studying is not important, boring along with can't see colorful photos on there. Yeah, it is being complicated. Book is very important in your case. As we know

that on this period, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this Which Process?: A Guide to the Selection of Welding and Related Processes (Woodhead Publishing Series in Welding and Other Joining Technologies) can make you experience more interested to read.
