*Brien Posey*

## **Hyper-V for VMware Administrators: Migration, Coexistence, and Management** Brien Posey

Learn to deploy and support Hyper-V, building on what you know about VMware's vSphere. Whether you're looking to run both hypervisors in parallel or migrate completely, *Hyper-V for VMware Administrators* has everything you need to get started.

The book begins with an overview of Hyper-V basics, including common management tasks such as creating a virtual machine and building a virtual network. You'll learn how to deploy a failover cluster to protect against the risk of Hyper-V becoming a single point of failure, and how to make virtual machines fault tolerant. System Center Virtual Machine Manager (SCVMM) is the preferred tool for managing large Hyper-V deployments, so you'll get to know this next and how it differs from VMware's vCenter solution, as well as how to manage a mixed environment including both vSphere and Hyper-V deployments.

Like any server migration, a virtual server migration requires careful planning to ensure success. You'll find information here on the specifics of migrating from vSphere to Hyper-V, planning for down time, IP address differences, performance considerations, and more. For migrations to Hyper-V, SCVMM is once again the preferred tool, but you'll also be introduced to some of the excellent free tools available.

One easily overlooked aspect of the migration process is the way in which it impacts your backup and recovery strategy. Knowing the best practices here can help you protect your Hyper-V environment. The book also covers how to monitor and maintain your Hyper-V environment once it's up and running, using features like Cluster-Aware Updating, automated live migrations, and availability sets. The concluding chapter shows you how to take advantage of the efficiencies provided by virtual machine libraries and templates.

Approach Hyper-V with confidence, and the knowledge that you've planned for success, with *Hyper-V for VMware Administrators*.

### **From reader reviews:**

#### **Vicki Shah:**

Book is to be different for each and every grade. Book for children right up until adult are different content. We all know that that book is very important usually. The book Hyper-V for VMware Administrators: Migration, Coexistence, and Management was making you to know about other know-how and of course you can take more information. It is very advantages for you. The e-book Hyper-V for VMware Administrators: Migration, Coexistence, and Management is not only giving you a lot more new information but also to become your friend when you sense bored. You can spend your spend time to read your guide. Try to make relationship together with the book Hyper-V for VMware Administrators: Migration, Coexistence, and Management. You never sense lose out for everything should you read some books.

#### **Dewey Rascon:**

Do you one of people who can't read enjoyable if the sentence chained in the straightway, hold on guys that aren't like that. This Hyper-V for VMware Administrators: Migration, Coexistence, and Management book is readable by you who hate the straight word style. You will find the info here are arrange for enjoyable studying experience without leaving actually decrease the knowledge that want to deliver to you. The writer associated with Hyper-V for VMware Administrators: Migration, Coexistence, and Management content conveys the idea easily to understand by many people. The printed and e-book are not different in the information but it just different in the form of it. So , do you continue to thinking Hyper-V for VMware Administrators: Migration, Coexistence, and Management is not loveable to be your top listing reading book?

#### **Olivia Dickert:**

This Hyper-V for VMware Administrators: Migration, Coexistence, and Management usually are reliable for you who want to be a successful person, why. The reason of this Hyper-V for VMware Administrators: Migration, Coexistence, and Management can be among the great books you must have is usually giving you more than just simple looking at food but feed an individual with information that possibly will shock your previous knowledge. This book will be handy, you can bring it everywhere you go and whenever your conditions in e-book and printed types. Beside that this Hyper-V for VMware Administrators: Migration, Coexistence, and Management giving you an enormous of experience for example rich vocabulary, giving you trial run of critical thinking that we know it useful in your day activity. So , let's have it appreciate reading.

#### **Ruth Lowry:**

Do you really one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Try to pick one book that you just dont know the inside because don't assess book by its include may doesn't work here is difficult job because you are frightened that the inside maybe not because fantastic as in the outside

appearance likes. Maybe your answer might be Hyper-V for VMware Administrators: Migration, Coexistence, and Management why because the fantastic cover that makes you consider with regards to the content will not disappoint an individual. The inside or content is fantastic as the outside as well as cover. Your reading 6th sense will directly assist you to pick up this book.
