Spectral Elements for Transport-Dominated Equations (Lecture Notes in Computational Science and Engineering)

Daniele Funaro

Spectral Elements for Transport-Dominated Equations (Lecture Notes in Computational Science and Engineering) Daniele Funaro

In the last few years there has been a growing interest in the development of numerical techniques appropriate for the approximation of differential model problems presenting multiscale solutions. This is the case, for instance, with functions displaying a smooth behavior, except in certain regions where sudden and sharp variations are localized. Typical examples are internal or boundary layers. When the number of degrees of freedom in the discretization process is not sufficient to ensure a fine resolution of the layers, some stabilization procedures are needed to avoid unpleasant oscillatory effects, without adding too much artificial viscosity to the scheme. In the field of finite elements, the streamline diffusion method, the Galerkin least-squares method, the bubble function approach, and other recent similar techniques provide excellent treatments of transport equations of elliptic type with small diffusive terms, referred to in fluid dynamics as advection-diffusion (or convection-diffusion) equations. Goals This book is an attempt to guide the reader in the construction of a computational code based on the spectral collocation method, using algebraic polynomials. The main topic is the approximation of elliptic type boundary-value partial differential equations in 2-D, with special attention to transport-diffusion equations, where the second-order diffusive terms are strongly dominated by the first-order advective terms. Applications will be considered especially in the case where nonlinear systems of partial differential equations can be reduced to a sequence of transport-diffusion equations.

From reader reviews:

Edward Peterson:

Have you spare time for just a day? What do you do when you have considerably more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent their very own spare time to take a walk, shopping, or went to often the Mall. How about open as well as read a book allowed Spectral Elements for Transport-Dominated Equations (Lecture Notes in Computational Science and Engineering)? Maybe it is for being best activity for you. You recognize beside you can spend your time along with your favorite's book, you can smarter than before. Do you agree with the opinion or you have other opinion?

Ronald Jackson:

Book is definitely written, printed, or descriptive for everything. You can realize everything you want by a e-book. Book has a different type. To be sure that book is important matter to bring us around the world. Beside that you can your reading skill was fluently. A publication Spectral Elements for Transport-Dominated Equations (Lecture Notes in Computational Science and Engineering) will make you to always be smarter. You can feel a lot more confidence if you can know about every little thing. But some of you think which open or reading the book make you bored. It's not make you fun. Why they may be thought like that? Have you trying to find best book or ideal book with you?

Karen Martinez:

This Spectral Elements for Transport-Dominated Equations (Lecture Notes in Computational Science and Engineering) is great e-book for you because the content which can be full of information for you who have always deal with world and possess to make decision every minute. This particular book reveal it information accurately using great manage word or we can claim no rambling sentences inside it. So if you are read this hurriedly you can have whole facts in it. Doesn't mean it only gives you straight forward sentences but tricky core information with lovely delivering sentences. Having Spectral Elements for Transport-Dominated Equations (Lecture Notes in Computational Science and Engineering) in your hand like finding the world in your arm, facts in it is not ridiculous one particular. We can say that no book that offer you world in ten or fifteen tiny right but this e-book already do that. So , this can be good reading book. Hi Mr. and Mrs. busy do you still doubt which?

Ruby Chartrand:

This Spectral Elements for Transport-Dominated Equations (Lecture Notes in Computational Science and Engineering) is completely new way for you who has fascination to look for some information as it relief your hunger details. Getting deeper you in it getting knowledge more you know otherwise you who still having small amount of digest in reading this Spectral Elements for Transport-Dominated Equations (Lecture Notes in Computational Science and Engineering) can be the light food for you because the information inside this book is easy to get by anyone. These books produce itself in the form and that is reachable by

anyone, yeah I mean in the e-book contact form. People who think that in e-book form make them feel sleepy even dizzy this guide is the answer. So there isn't any in reading a book especially this one. You can find what you are looking for. It should be here for you. So , don't miss that! Just read this e-book variety for your better life and knowledge.
