Jeff R Hearn

‘This exceptionally interesting study provides an up-to-date and integrated perspective on organizations, violence, gender and sexuality. It pays particular attention to the power wielded by hierarchies of heterosexual men, and the ways in which this produces violence in different, carefully analyzed forms. This book is a major contribution to the construction of sociological and political knowledge that is not founded on the dominant definitions of heterosexual masculinities’ - Professor Terrell Carver, University of Bristol.

‘This is a wide-ranging and authoritative book. The authors draw attention to the huge amount of evidence now available that documents the gendering and sexualising processes at the core of organisational life. While they never nag about violation and inequality, they are nonetheless relentless in confronting the reader with the weight of evidence’- Professor Rosemary Pringle, University of Southampton.

This book brings together the themes of gender, sexuality, violence and organizations. The authors synthesize the literature and research which has been done in these fields and provide a coherent framework for understanding the interrelationship between these concepts. The importance of violence and abuse, and particularly men's violence to women, children and other men has been well established, especially through feminist and some pro-feminist research. The insights of this scholarship have rarely been applied to organizational analysis. The authors draw on this literature and their own research, as well as relevant literatures on safety and risk at work; anxiety and stress at work; organizational policies on violence; sexual harassment and bullying in organizations; and male sexuality, to provide valuable information on violence in and around organizations. Gender, Sexuality and Violence in Organizations breaks new ground in organization studies and will be essential reading for academics and students in both organization studies and all those studying issues of gender and sexuality in organizations.
