The Animal/Human Bond Orland Soave

Today, the interactions between man and animals are daily ones, sometimes subtle, othertimes complex and essential for the survival of both animals and man. The knowledge accumulated from human/animal interactions is interesting, stimulating, and useful in everyday life. This story is of interest to biologists, behaviorists, agriculturalists, psychologists, sociologists, veterinarians, physicians and the general public. Such associations represent the study of life. They are like symphony music is to the subject of mathematics: they compliment the hard science by providing interest, harmony, soul and satisfaction. *The Animal/Human Bond (Second Edition)* increases the coverage of epidemiology, with added discussion of each facet of the original work.
