Intermediate grade readers are not an M, an N, or an O—they're idea-wranglers, ready to comprehend when we honor who they are as thinkers first

In *30 Big Idea Lessons for Small Groups*, educators Rafferty, Morello, and Rountos provide an amazing framework that gets students interacting with texts. You prompt and guide, but they think! **Big-Idea groups** are the piece that's been missing from small group instruction: engagement from the get-go.

Follow this unique 4-part process to develop students' literal, inferential, evaluative, and analytical skills:

1. **Engage: Before Reading** Using a tactile tool like a topic card or a pyramid, readers literally move ideas around on their small group table as they debate a question related to the text and to big ideas about courage, persistence, love, and honesty, and more.
2. **Discuss: During Reading** Students read and mark up a short text, exploring questions that get at the author's take on the big idea, noticing key vocabulary, text structure, moments of inference, and more.
3. **Deep-See Think: After Reading** Students re-read, synthesize, and revise their interpretations together and tweak the tactile tool, based on questions that probe the big idea in new and deeper ways.
4. **Connect: After Reading** Students summarize, and begin to transfer their understandings to other texts in independent reading and the world beyond, primed for this all-important transfer because they've been engaged in topics that clearly relate to their lives.

Tap into 30 lessons organized by text complexity, reproducible forms, assessments, and a bank of engagement tools so you can switch it up. Use these lessons across the year as a warm up to a whole-class novel, to augment your core reading program, to challenge your capable readers and bring your striving readers in to rich yet accessible reading experiences.
