Expatriation,

or the stripping away citizenship and all the rights that come with it, is usually associated with despotic and totalitarian regimes. The imagery of mass expulsion of once integral members of the community is associated with civil wars, ethnic cleansing, the Holocaust, or other oppressive historical events. Yet these practices are not just a product of undemocratic events or extreme situations, but are standard clauses within the legal systems of most democratic states, including the United States. Witness, for example, Yaser Esam Hamdi, captured in Afghanistan in November 2001, sent to Guantánamo, transferred to a naval brig in South Carolina when it was revealed that he was a U.S. citizen, and held there without trial until 2004, when the Justice Department released Hamdi to Saudi Arabia without charge on the condition that he renounce his U.S. citizenship.

Hamdi's

story may be the best known expatriation story in recent memory, but in *Revoking Citizenship*, Ben Herzog reveals

America's long history of making both naturalized immigrants and native-born citizens un-American after their citizenship was stripped away. Tracing this history from the early republic through the Cold War, Herzog locates the sociological, political, legal, and historic meanings of revoking citizenship.

Why, when, and with what justification do states take away citizenship from their subjects? Should loyalty be judged according to birthplace or actions?

Using the history and policies of revoking citizenship as a lens, *Revoking Citizenship* examines, describes, and analyzes the complex relationships between citizenship, immigration, and national identity.
