Didactics of Mathematics as a Scientific Discipline (Mathematics Education Library) Rolf Biehler

Didactics of Mathematics as a Scientific Discipline describes the state of the art in a new branch of science. Starting from a general perspective on the didactics of mathematics, the 30 original contributions to the book, drawn from 10 different countries, go on to identify certain subdisciplines and suggest an overall structure or 'topology' of the field.

The book is divided into eight sections: (1) Preparing Mathematics for Students; (2) Teacher Education and Research on Teaching; (3) Interaction in the Classroom; (4) Technology and Mathematics Education; (5) Psychology of Mathematical Thinking; (6) Differential Didactics; (7) History and Epistemology of Mathematics and Mathematics Education; (8) Cultural Framing of Teaching and Learning Mathematics. Didactics of Mathematics as a Scientific Discipline is required reading for all researchers into the didactics of mathematics, and contains surveys and a variety of stimulating reflections which make it extremely useful for mathematics educators and teacher trainers interested in the theory of their practice. Future and practising teachers of mathematics will find much to interest them in relation to their daily work, especially as it relates to the teaching of different age groups and ability ranges. The book is also recommended to researchers in neighbouring disciplines, such as mathematics itself, general education, educational psychology and cognitive science.

From reader reviews:

Edward Olivieri:

The experience that you get from Didactics of Mathematics as a Scientific Discipline (Mathematics Education Library) is a more deep you digging the information that hide inside the words the more you get enthusiastic about reading it. It doesn't mean that this book is hard to be aware of but Didactics of Mathematics as a Scientific Discipline (Mathematics Education Library) giving you joy feeling of reading. The article author conveys their point in specific way that can be understood through anyone who read the item because the author of this e-book is well-known enough. That book also makes your current vocabulary increase well. So it is easy to understand then can go to you, both in printed or e-book style are available. We recommend you for having that Didactics of Mathematics as a Scientific Discipline (Mathematics Education Library) instantly.

Jose Rosales:

Your reading sixth sense will not betray you, why because this Didactics of Mathematics as a Scientific Discipline (Mathematics Education Library) publication written by well-known writer whose to say well how to make book which might be understand by anyone who have read the book. Written throughout good manner for you, leaking every ideas and writing skill only for eliminate your personal hunger then you still skepticism Didactics of Mathematics as a Scientific Discipline (Mathematics Education Library) as good book but not only by the cover but also through the content. This is one book that can break don't assess book by its deal with, so do you still needing a different sixth sense to pick this!? Oh come on your examining sixth sense already alerted you so why you have to listening to yet another sixth sense.

Jennifer Wilson:

As a college student exactly feel bored for you to reading. If their teacher expected them to go to the library or to make summary for some guide, they are complained. Just tiny students that has reading's spirit or real their passion. They just do what the professor want, like asked to the library. They go to generally there but nothing reading really. Any students feel that studying is not important, boring as well as can't see colorful images on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Didactics of Mathematics as a Scientific Discipline (Mathematics Education Library) can make you truly feel more interested to read.

Suzanne Robbins:

A lot of people said that they feel fed up when they reading a publication. They are directly felt this when they get a half regions of the book. You can choose the book Didactics of Mathematics as a Scientific Discipline (Mathematics Education Library) to make your own reading is interesting. Your current skill of reading expertise is developing when you similar to reading. Try to choose straightforward book to make you

enjoy to see it and mingle the opinion about book and reading through especially. It is to be 1st opinion for you to like to available a book and study it. Beside that the e-book Didactics of Mathematics as a Scientific Discipline (Mathematics Education Library) can to be your friend when you're experience alone and confuse in what must you're doing of this time.
