Deep in the heart of the United Nations building in New York, directly under the podium of the Assembly, lies a temple dedicated to a spiritual entity coyly referred to as 'the Coming One'.

It is the only religious area permitted within the UN.

In that temple lies a massive black Altar, constructed from the largest piece of magnetite ever mined at the time.

This is the story of that Altar - how it got there, how it has affected the lives of every person now alive on this planet, and what is yet to come.

This is no flight of fancy. Everything you read in here is a documented fact, chased down, referenced and analysed by an award-winning investigative journalist and bestselling author.

Is this the most incredible and spine-chilling true story you'll ever read?

You be the judge...
