The Steam House: Extended Annotated & Illustrated Edition

Jules Verne

The Steam House: Extended Annotated & Illustrated Edition Jules Verne

This is the fully illustrated and extended annotated edition including a rare and extensive biographical essay on the author, his life and works plus a wealth of illustrations.

We leave it to the critics to determine the value of Jules Verne's descriptions if they were shorn of the marvellous in which he delights to clothe them. All we can say is. his grotesque images are highly amusing. Here we have the story of the Sepoy Mutiny in India, and hear a great deal about the terrible Nana who set it a-going. The Steam House is a gigantic engine of steel, fashioned like a huge elephant, impelled by steam, and dragging several vast cars as big as houses, up and down the country. We meet with this droll conception in many of the fabulous illustrations by a French artist.
