Handbook of Metaheuristics: 146 (International Series in Operations Research & Management Science)

Handbook of Metaheuristics: 146 (International Series in Operations Research & Management Science)

The first edition of the Handbook of Metaheuristics was published in 2003 under the editorship of Fred Glover and Gary A. Kochenberger. Given the numerous developments observed in the field of metaheuristics in recent years, it appeared that the time was ripe for a second edition of the Handbook. For different reasons, Fred and Gary were unable to accept Springer's invitation to prepare this second edition and they suggested that we should take over the editorship responsibility of the Handbook. We are deeply honored and grateful for their trust. As stated in the first edition, metaheuristics are "solution methods that orchestrate an interaction between local improvement procedures and higher level strategies to create a process capable of escaping from local optima and performing a robust search of a solution space." Although this broad characterization still holds today, many new and exciting developments and extensions have been observed in the last few years. We think in particular to hybrids, which take advantage of the strengths of each of their individual metaheuristic components to better explore the solution space. Hybrids of metaheuristics with other optimization techniques, like branch-and-bound, mathematical programming or constraint programming are also increasingly popular. On the front of applications, metaheuristics are now used to find high-quality solutions to an ever-growing number of complex, ill-defined real-world problems, in particular combinatorial ones.

From reader reviews:

Patti Metivier:

Here thing why that Handbook of Metaheuristics: 146 (International Series in Operations Research & Management Science) are different and trusted to be yours. First of all looking at a book is good however it depends in the content of it which is the content is as scrumptious as food or not. Handbook of Metaheuristics: 146 (International Series in Operations Research & Management Science) giving you information deeper as different ways, you can find any guide out there but there is no e-book that similar with Handbook of Metaheuristics: 146 (International Series in Operations Research & Management Science). It gives you thrill studying journey, its open up your eyes about the thing this happened in the world which is probably can be happened around you. You can easily bring everywhere like in park your car, café, or even in your technique home by train. In case you are having difficulties in bringing the imprinted book maybe the form of Handbook of Metaheuristics: 146 (International Series in Operations Research & Management Science) in e-book can be your alternative.

Kim Marshall:

Spent a free a chance to be fun activity to accomplish! A lot of people spent their free time with their family, or their friends. Usually they doing activity like watching television, about to beach, or picnic from the park. They actually doing same thing every week. Do you feel it? Do you wish to something different to fill your current free time/ holiday? Might be reading a book could be option to fill your no cost time/ holiday. The first thing that you will ask may be what kinds of guide that you should read. If you want to try out look for book, may be the publication untitled Handbook of Metaheuristics: 146 (International Series in Operations Research & Management Science) can be fine book to read. May be it may be best activity to you.

Pablo Bussey:

Typically the book Handbook of Metaheuristics: 146 (International Series in Operations Research & Management Science) has a lot info on it. So when you make sure to read this book you can get a lot of gain. The book was published by the very famous author. The writer makes some research ahead of write this book. This book very easy to read you may get the point easily after reading this article book.

Steven Evans:

You could spend your free time to see this book this book. This Handbook of Metaheuristics: 146 (International Series in Operations Research & Management Science) is simple bringing you can read it in the park, in the beach, train and soon. If you did not get much space to bring the printed book, you can buy the actual e-book. It is make you quicker to read it. You can save the book in your smart phone. Thus there are a lot of benefits that you will get when one buys this book.
