## **Beating the Dow Completely Revised and Updated** Michael B. O'Higgins, John Downes

In 1991, Michael B. O'Higgins, one of the nation's top money managers, turned the investment world upside down with an ingenious strategy, showing how all investors--from those with only \$5,000 to invest to millionaires--could beat the pros 95% of the time by putting 100% of their equity investment into the high-yield, low-risk "dog" stocks of the Dow Jones Industrial Average. His formula spawned a veritable industry, including websites, mutual funds, and \$20 billion worth of investments, elevating the theory to legendary status.

Reflecting on the greatest bull market of our time, this must-have investment guide has been revised and updated for a new economy. With current company and stock profiles, as well as new charts, statistics, graphs, and figures, Beating the Dow is the smart investment that you--and your portfolio--can't afford to miss.
