Heuristic Search: Theory and Applications

Stefan Edelkamp, Stefan Schroedl

Heuristic Search: Theory and Applications Stefan Edelkamp, Stefan Schroedl

Search has been vital to artificial intelligence from the very beginning as a core technique in problem solving. The authors present a thorough overview of heuristic search with a balance of discussion between theoretical analysis and efficient implementation and application to real-world problems. Current developments in search such as pattern databases and search with efficient use of external memory and parallel processing units on main boards and graphics cards are detailed.

Heuristic search as a problem solving tool is demonstrated in applications for puzzle solving, game playing, constraint satisfaction and machine learning. While no previous familiarity with heuristic search is necessary the reader should have a basic knowledge of algorithms, data structures, and calculus. Real-world case studies and chapter ending exercises help to create a full and realized picture of how search fits into the world of artificial intelligence and the one around us.

*Provides real-world success stories and case studies for heuristic search algorithms *Includes many AI developments not yet covered in textbooks such as pattern databases, symbolic search, and parallel processing units

From reader reviews:

Delores Nault:

Nowadays reading books be than want or need but also work as a life style. This reading routine give you lot of advantages. The huge benefits you got of course the knowledge your information inside the book that will improve your knowledge and information. The knowledge you get based on what kind of publication you read, if you want send more knowledge just go with knowledge books but if you want really feel happy read one having theme for entertaining including comic or novel. Often the Heuristic Search: Theory and Applications is kind of book which is giving the reader erratic experience.

Phillip Patten:

Reading a book can be one of a lot of task that everyone in the world adores. Do you like reading book and so. There are a lot of reasons why people enjoy it. First reading a e-book will give you a lot of new details. When you read a book you will get new information due to the fact book is one of many ways to share the information or their idea. Second, examining a book will make you actually more imaginative. When you reading through a book especially fictional works book the author will bring you to imagine the story how the characters do it anything. Third, you can share your knowledge to others. When you read this Heuristic Search: Theory and Applications, it is possible to tells your family, friends in addition to soon about yours e-book. Your knowledge can inspire the others, make them reading a book.

Antonia Parham:

This Heuristic Search: Theory and Applications is great publication for you because the content that is full of information for you who also always deal with world and still have to make decision every minute. This book reveal it information accurately using great arrange word or we can claim no rambling sentences inside. So if you are read this hurriedly you can have whole data in it. Doesn't mean it only provides straight forward sentences but difficult core information with beautiful delivering sentences. Having Heuristic Search: Theory and Applications in your hand like finding the world in your arm, data in it is not ridiculous 1. We can say that no book that offer you world throughout ten or fifteen moment right but this guide already do that. So , this can be good reading book. Hey Mr. and Mrs. active do you still doubt that will?

Roy Jordan:

What is your hobby? Have you heard in which question when you got scholars? We believe that that problem was given by teacher on their students. Many kinds of hobby, Every person has different hobby. And you know that little person just like reading or as reading become their hobby. You need to understand that reading is very important along with book as to be the factor. Book is important thing to add you knowledge, except your own teacher or lecturer. You discover good news or update about something by book. Many kinds of books that can you take to be your object. One of them is Heuristic Search: Theory and Applications.
