Patterns of Creation: Logos and the Tree of Life in the Gospel of John Stephen Pope

This book is a radical exploration of the mystical teachings in the Gospel of John. It helps the reader to experience these spiritual truths for themselves, and go beyond the everyday mind, which is dominated by the ego and realize their eternal Being, which Johns Gospel calls Logos. By approaching the teachings in a meditative state, the symbolism contained within the Greek text opens out and comes alive in the present moment. The Gospel is not a historical document; it speaks directly to each person now and the states of consciousness represented in the stories are accessible now. The book contains guided meditations to help bring this to life for the reader. This awakening concerns our relationship with the whole of life. Spiritual consciousness means that we are aware of the sacredness of our connections to each other as fellow human beings, and to the creatures of the natural world. Christ and the Logos contain both masculine and feminine in balance; at this critical time, our well-being and that of our fellow creatures is dependent on this realization.
